SIU CLEAN LAPTOP PROGRAM

Purpose:

The risks associated with carrying electronic devices while traveling arise from two sources: the likelihood that your device will be compromised and the impact of such a compromise. These refall into two main categories: exposing information the university is required to protect (i.e., restricted, classified or export controlled data) and being compromised by malware while traveling the likelihood of being compromised by malware is greatest when interestal travelers should especially high when governments operate and manage the demander of the likelihood of being compromised by malware is greatest when interestal travelers should take extraprecautions. Understand that foreign universities, governments, and companies are often linked. Any inquiry regarding year chars ay have an ulterior motive, such as stealing intellectual property. Be cautious of unsolicited requests and questions about your research or other sensitive informationese clean laptops provide both you and the SIU System extra security in the vent that the laptop is compromised and will assist both you and the SIU System with maintaining export control compliance.
